## EXPERIENCE

### PRODUCT DESIGNER - FREELANCE

2021 DEC

- Revamped website flows and navigation menus, reducing the frequency of misdirected customer service queries by 30% and increasing traffic to previously neglected pages
- Conducted evaluative testing with 10+ participants using InVision and UserTesting.com; synthesized and designed against findings which reduced bounce rate for primary user flow by 30%
- Led application design sessions with client teams on 20+ projects to develop functional and technical requirements
- Produced customer magazine, e-newsletter, and website, improving brand NPS by over 10 points.
- Analyzed impact and effectiveness of in-app UI changes on customer retention; identified features of customer behavior and recommended additional menu modifications.

### BUSINESS ANALYST - OPENTEXT

JULY 2019 - DEC 2021

- Developed dashboards for Renewals teams to enable stakeholders to view complex data in a summary view with the ability to retrieve detail.
- Carried out testing at various stages to ensure accuracy of data and smooth user interface.
- Worked with stakeholders across various geographical regions to understand their needs, determine and manage requirements to deliver data-driven and process-driven solutions.
- Interface with a cross-functional team of vendors and technical leads on the design, development, and implementation of business applications and software development to aid operational efficiency.
- Increased efficiency in report generation through SQL queries to pull data from multiple sources with ability to add calculations not available in the system.
